

Lynnette Beirne

Lynnette is a 5th generation West Coaster and is very passionate about making the West Coast a wonderful place for locals and visitors.

Her husband Rick is disabled due to a serious Stroke in 2005, but is a great support to Lynnette in her busy life. Lynnette and her husband run a Homestay and catering business as well as the Cafe at Tai Poutini Polytechnic.

As part of the Cafe business they deliver meals in the community five days a week.

Lynnette is a cancer survivor so has had ample insight into the health system here and in Canterbury. Her goal is to ensure we have a great health service for this and future generations to come. Both of Lynnette's children have careers and are settled back here on the West Coast.
